Peters Professional ® Water Soluble Fertilizer 15-30-15 Hi-Phos Special

Scotts-Sierra Horticultural Products Co.

The Scotts Company 14111 Scottslawn Road Marysville, Ohio 43041 In Case of Emergency call: 1-937-644-0011 (USA) For non-Emergency calls: 1-937-644-0011 (USA)

1. MATERIAL IDENTIFICATION

Product Name:

Peters Professional(R) Water Soluble Fertilizer

Analysis:

15-30-15 Hi-Phos Special

Stock Number:

91080

| NFPA Hazard Ratings | | 0 Least |
|---------------------|---|--------------------|
| Health | 2 | 1 Slight |
| Flammability | D | 2 Moderate |
| Reactivity | 1 | 3 High 4 Severe |

11. HAZARDOUS INGREDIENTS

| | | OSHA | ACGIH |
|--------------------------------------|------------|------------|------------|
| MATERIAL | CAS# | <u>PEL</u> | _TLV_ |
| Potassium Nitrate | 7757-79-1 | None | None |
| (containing up to 5% Sodium Nitrate) | 7631-99-4 | None | None |
| Monoammonium Phosphate | 7722-76-1 | None | None |
| Urea | 57-13-6 | None | None |
| Magnesium Sulfate | 7487-88-9 | None | None |
| Boric Acid | 10043-35-3 | None | None |
| Copper EDTA | 14025-15-1 | None | None |
| Iron EDTA | 15708-41-5 | None | None |
| Manganese EDTA | 15375-84-5 | None | None |
| Sodium Molybdate | 7631-95-0 | 5mg(Mo)/m3 | 5mg(Mo)/m3 |
| Zinc EDTA | 14025-21-9 | None | None |

The ACGIH Threshold Limit Values for muisance (inert) dusts containing < 1% crystalline silica and no asbestos are: 10 mg/m3 total, 5 mg/m3 respirable.

III. FIRST AID PROCEDURES

Eyes:

If in eyes, flush with water for 15 minutes holding eyelids open. Get medical attention if irritation

Ingestion:

Never give anything by mouth to an unconscious or convulsing person. Have conscious person drink 1

to 2 glasses of water, then induce repeated vomiting until vomit is clear. Call physician.

Skin:

Wash with plenty of soap and water.

Inhalation:

Remove to fresh air. Treat symptomatically.

IV. HEALTH HAZARD INFORMATION

Summary of Risks

Prolonged or repeated direct contact with fertilizer may irritate eyes and skin. Inhalation of dust may irritate nose, throat, and lungs. Prolonged exposure may cause weakness, depression, headache, mental impairment, anemia, methemoglobinemia, and kidney injury.

Ingestion of product can cause severe gastrointestinal irritation, muscular weakness, and blue-tinged skin (cyanosis). Infants and children are especially at risk for cyanosis. Ingestion of large amounts may result in death.

A Russian study of 67 workers in an environment with high concentrations of urea found a high incidence of protein metabolism disturbances and chronic weight loss. Exposure levels were not reported.

Tumorigenic, mutagenic, and reproductive effects of potassium nitrate and urea in laboratory animals are reported in the NIOSH Registry of Toxic Effects.

Blue dye may cause temporary staining of skin.

Medical conditions which may

Skin abrasions and sores.

be aggravated by contact:

Inhalation of dust may aggravate asthma.

Target Organs:

Skin, eyes, respiratory tract, gastrointestinal tract, and central nervous system.

Primary Entry Route(s):

Ingestion, inhalation.

Chronic Effect(s):

Chronic exposure to nitrates may cause weakness, depression, headache, blood

changes (methemoglobinemia and anemia), and kidney injury (nephritis).

Acute Effect(s):

Excessive inhalation of dust may cause irritation and coughing. Prolonged

skin contact with product may cause mild irritation.

Ingredients Listed as a Carcinogen

IARC Monographs: No

NTP: OSHA: No No

V. PERSONAL PROTECTION AND PRECAUTIONS

Personal protective equipment.

Goggles:

None required for routine use as fertilizer. High airborne dust levels or mists of product dissolved

in liquid may be irritating; use chemical goggles.

Gloves:

None required for normal use. If prolonged or repeated use irritates skin, use natural

rubber gloves.

Respirator:

If airborne dust levels are high or irritation occurs, use NIOSH/MSHA approved respirator for dusts,

mists, and fumes to reduce exposures to acceptable levels.

Workplace Considerations

Ventilation:

Ventilation and personal protection are recommended whenever dust levels are high or

product does not remain intact.

Safety Stations:

Running water should be available in case material gets in eyes.

VI. PHYSICAL HAZARD INFORMATION

Flammable Limits (% in Air):

N/A Water

Color: Odor:

Aqua-blue powder Slight yeasty odor

Extinguishing Media: Auto Ignition Temperature:

N/A

Boiling Point:

Decomposes on heating

Flash Point (method):

Decomposes on heating

Solubility in H20

3.5 lbs/gal

Specific Gravity:

(H20 = 1) 45.1-47.2 lbs/ft3

Vapor Pressure:

Not Known

Evaporation Rate:

N/A

pH:

5.4 (10% solution)

Product Name: PETERS PROFESSIONAL(R) WSF HI-PHOS SPECIAL (St. # 91080)

Reactivity

Stability:

Stable

Hazardous Polymerization:

Conditions to Avoid:

Will Not Occur

Extreme heat. Contact with strong alkalies, oxidizers, and reducing agents. Contact with

fuels and other organic or combustible materials. Active metals such as aluminum and

magnesium. Strong alkalies and reducing agents. Chlorine compounds.

Hazardous Decomposition

Products:

Oxides of nitrogen, sulfur, potassium and phosphorous as well as ammonia, biuret,

evanuric acid and eyanic acid.

Chemical Incompatibilities:

Nitrates are incompatible with strong alkalies and reducing agents, active metals (such as

aluminum and magnesium), ammonia, organic, and combustible materials.

Monammonium phosphate is incompatible with sodium hypochlorite.

Urea is incompatible with strong oxidizers alkalies, sodium nitrite, and many chlorine

compounds (including bleach and other household cleaning products).

Unusual Fire, Explosion

and Reactivity Hazards:

This product is comprised of materials which are oxidizers in their pure, unmixed forms. It will not burn but can provide oxygen for existing fires and cause combustible materials

to ignite explosively.

Material decomposes on heating to emit ammonia and toxic oxides of nitrogen, sulfur,

phosphorous, potassium as well as buiret, cyanuric acid and cyanic acid.

In Case of Fire:

Evacuate area. Flood with water to cool containers. Apply water from a safe distance to avoid splattering of molten material. Wear self-contained breathing apparatus to

fight large fires.

VII. REGULATORY INFORMATION

DOT Classification:

Not DOT regulated.

VIII. STORAGE AND SPECIAL PRECAUTIONS

Precautions to be taken in handling and storage

Store in a cool, dry area away from incompatible materials and heat sources. Store away from feed and foodstuffs, as well as household cleaning products. Wash hands with soap and water after handling product. Keep out of reach of children.

In case of spills

Avoid dusting or misting conditions during cleanup. If material is uncontaminated, collect and reuse as recommended for product. If contaminated, put in appropriate container and dispose. Keep spills away from drinking water supplies. After cleaning up spill, flush area with water.

Waste Management/Disposal

Apply as fertilizer to field. If product is contaminated, dispose of in an approved landfill disposal facility, in accordance with applicable federal, state, and local regulations.
